

## PRESS RELEASE

### ***Experience the Action at the BattleBot Challenge!***

*Kuala Lumpur, 26 November 2008* – Come down to Bangsar Village II on the 6 & 7 December for an adrenaline pumping challenge. Children's Technology Workshop (CTWorkshop) is organizing the BattleBot Challenge, a knock out competition between two Lego® robots.

Using Lego® technology, kids are able to create various structures and learn simple mechanisms. This is the first competition of its kind in Malaysia, open exclusively to CTWorkshop members and students of our partner local and international schools.

Participants in teams of two have to strategically design and create a bot (vehicle) that is strong enough to withstand challenges from other teams. These special vehicles will be driven by a motor and powered by a programmer. The challenge aims to strengthen critical-thinking, problem-solving, and teamwork skills.

Participants stand a chance of winning cash along with other attractive prizes. This event is sponsored by Bangsar Village, Domino's Pizza, Nestlé, Sasbadi, SweetKiss, Kidz Magazine, and PediaSure. Come join us for a day of action, suspense and loud cheering as we battle hard to claim victory!

Drop by our workshop or visit our website <[www.ctworkshop.com.my](http://www.ctworkshop.com.my)> for the latest events, promotions and the current timetable. Weekly Workshop Clubs run on weekday afternoons and all day at weekends. School Holiday programs (**iCamp**) are offered every weekday (Mon-Fri) throughout the school holidays.

#### **About Children's Technology Workshop**

*Children's Technology Workshop is a company founded in Canada focused on the development of high-quality curriculum, software and children's programs. We conduct classroom workshops, holiday camps, after school workshops and parties for children, aged 4-14. We have been building our curriculum since 1997 and we currently operate in cities across Canada, the United States, Hong Kong, China, India, South Africa and Singapore. CTWorkshop Malaysia's HQ is at: F-3D, 1st Floor, Bangsar Village 1, 1 Jalan Telawi Satu, 59100 Kuala Lumpur, with a branch at F106 Centrepoint (New Wing), Bandar Utama.*
